

# GOTHENBURG

Increase the share of sustainable travel

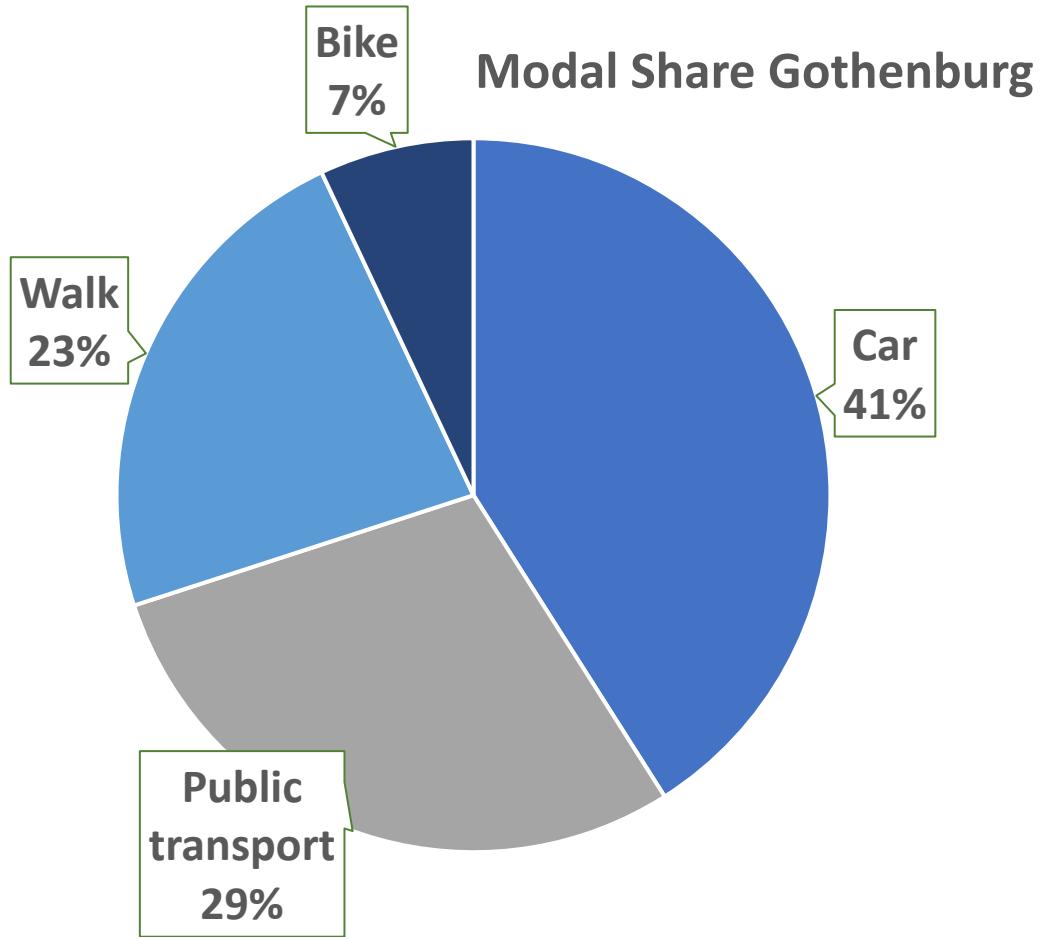

Decrease the environmental impacts of transport

Long-term increase in attractiveness and accessibility

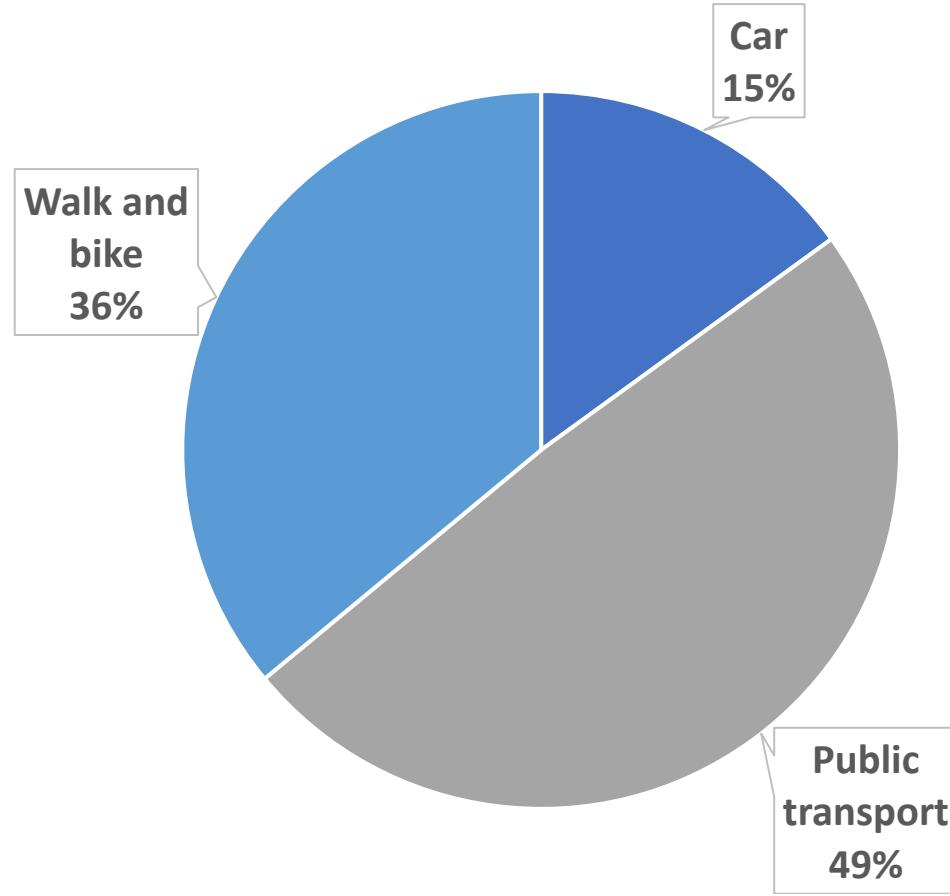

# GOTHENBURG

**Goal: By 2035, 85 % of the residents in Gothenburg will consider walking the most attractive way of travel in urban environments**

### Modal Share Central Gothenburg

# Modal share (2017)

Some interesting facts

Gothenburg has  
more than 40 city  
park areas and 300  
playgrounds

Another specific is  
the trams that  
cross the streets  
here and there

---

And they have ferry-public  
transport across the river

# Ongoing projects

---

- Road and construction works
- The Western Link (Västlänken)
- Mobility projects in the city for green, safe and sustainable travel
- A bridge for Walking and cycling across the river

## A safe way to school

- Focus on a safe environment around schools
- Target behavior:
  - Information campaigns
  - Parental responsibility
  - Walking schoolbuses
  - Car free zones around schools, new project
- Today only 4 out of 10 children travel by an active mode to school
- 60% live within walking or cycling distance from school
